

How to order and create a Developers Account with Apple

Step 1:

Information that is required before you enrol, a summarised list is provided below:

- An Apple ID & Password (you must register for this)
- Two-factor verification must be enabled (this is part of the registration process)
- A D-U-N-S Number (for instructions on how to request a D-U-N-S Number click here <https://developer.apple.com/support/D-U-N-S/>)
- Legal Entity Status (your business legal enterprise registration details)
- Legal Binding Authority (the person authorised to act for the business enterprise)
- A Website (your website details)
- Credit Card for online payment

Step 2: Enrollment

Once you have the documentation listed above in place follow this link: <https://developer.apple.com/programs/enroll/> and click on *Start Your Enrollment*

- You will be prompted to enter your Apple ID and password
- Agree to *Terms & Conditions*
- Click *Submit*
- Select the *Entity Type* of your Developer Account and click on *Continue*
Individual/ Sole Proprietor/ Single Person Business
Company/ Organisation
Government Organisation
- You will be required to fill in your contact details, these may differ according to which option you selected above
- Agree to *Terms & Conditions* again and click *Continue*
- The screen will then reflect the information that you entered, if the information is correct, click *Continue*
- Check *Automatic Renewal*
- Click on *Purchase*
- Sign in using your Apple ID
- Fill in your payment details
- Click *Continue*
- Click *Order Now*

There is a 24-hour waiting period in which Apple can approve your membership. If you haven't received your membership within 24-hours follow the link below:

<https://developer.apple.com/support/purchase-activation/>

- Scroll to the bottom of the page and find *I've completed my purchase but haven't received a membership confirmation.*
- Click on *contact us* and fill in the details and click *send*.
